## **Tips for Preparing Your Quilt for Longarming**

Your quilt back must be at least 4 inches larger on the top and all four sides. If not, we will baste on extra leaders.

Press your quilt top and backing well and trim all threads.

If your fabric is directional, please mark the top of your quilt and backing with a safety pin.

If you are embellishing your quilt with patches, buttons, beads, etc, it must be done after quilting!
